Plastic Food Containers & Trays

imkapack

PET/PE RPET APET PP/EVOH/PP HOPP +4 COPP -40 PP/EVOH/PE

As **imkapack**, with more than 25 years of experience, we produce thermoformed, RPET, APET, PET/PE, PP/EVOH/PP, HOPP, COPP, PP/EVOH/PE food containers for the food industry. We process nearly 6000 tones of raw materials per year in a closed area of approximately 5500 m². With a wide range of products, we continue our work with the awareness of our responsibility for the protection of human health, nature and natural resources. We produce in accordance with the ISO 9001/2015 quality management system and the BRCGS certificate, which shows that the products of packaging manufacturers are produced to the highest quality and safety standards. This also means having an important hygiene standard.

The increase in the world population and the decrease in resources impose an important mission on us in terms of sustainability. **imkapack** also makes maximum effort to ensure that the products it produces are 100% recyclable and to increase the ratio of recycled materials in its products day by day. We also aim to develop and market sustainable packaging solutions without compromising food safety by respecting the health, safety and rights of all people.

We develop solutions that reduce the impact our products may have on the environment, for this we are in constant communication with our customers, suppliers and other sector representatives. We focus on efficiency in our production processes.
